

General Information

The following laws pertain to recreational saltwater fishing, shrimping, crabbing and shellfishing. Individuals (age 16 and older) harvesting marine resources, including finfish, oysters, clams, shrimp and crab must purchase an annual or temporary Saltwater Recreational Fishing License - unless fishing on a licensed public fishing pier; fishing on a licensed charter vessel while under hire; using 3 or fewer drop nets, 3 or fewer fold up traps, or 3 or fewer handlines with no hooks and a single bait per line (chicken necking); or shrimp baiting (which requires a shrimp baiting license).

Fishing piers and chartered vessels charging a fee for fishing must purchase an annual Public Fishing Pier or Charter Vessel license, respectively. Applications for Public Fishing Pier and Charter Vessel Licenses are available from the SCDNR office in Charleston.

Any person engaged in selling any fish or fishery product, including bait, must first obtain the appropriate license. Regulations concerning commercial saltwater fishing are provided with commercial licenses and are available through the Marine Resources Division at the address below.

Use Circle Hooks

Anglers are reminded of the conservation benefits of using circle hooks. Because of their unique design, circle hooks almost always hook fish in the mouth, whereas other hooks are more likely to hook fish in the gut or gills. Fish hooked in the gut or gills will often die of injuries shortly after being released. By practicing catch and release with circle hooks, the fish that you release will help to conserve South Carolina's fish populations.
